

MARSHAL'S REPORT
August 14TH – September 9th 2008

August 16th 2:47 pm- The Deputy on duty was called to the ski area regarding a deer that had been shot by an archer outside of the Town's prescribed hunting area. With assistance from the Division of Wildlife Resources, it was determined that the hunter had no criminal intent and was misinformed about his location outside the hunting boundaries. He was allowed to keep the deer with a warning placed against his state hunting license.

August 17th 2:25 pm- The Marshal's and Fire Departments assisted a man experiencing chest tightness and arm pain. He was transported to a local hospital via ambulance.

August 20th 2:49 pm- Attendees of the Watershed Symposium held at Alf's restaurant had a front row seat to observe our watershed enforcement program. As a speaker gave their presentation, a mini-van was observed through the window behind the podium attempting to climb negotiate their way up the mountain in the Sugarloaf area. The deputy on duty promptly intercepted the driver and assisted them from the mountain. A citation was issued for off road travel.

August 21st 1210 pm- The Marshal's and Fire Departments responded to the Albion Campground to assist an 89 year old patient with hip and back pain. The person was transported via ambulance for further care. At 5:15 pm, a Salt Lake City man was charged with theft of services from an incident last ski season where he was caught skiing on someone else's ski pass.

August 22nd 5:38 pm- The Marshal's and Fire Departments responded to the scene of a thirty six year old man who had very unfortunately collapsed and died while jogging. Very appreciated assistance was provided from the Salt Lake County Sheriff's Office and Forest Service Law Enforcement. Our investigation remains open pending a report from the Office of the Medical Examiner.

August 30th 1:00 pm- A contractor was cited in Albion Basin for abandoning a fire.

September 1st 1:56 pm- A 911 hang up call was investigated at an Albion Basin residence and determined to be a phone line malfunction.

September 6th 2:04 am- The deputy on duty responded to the Rustler Lodge regarding a disorderly guest. The situation resolved itself upon his arrival. At 5:38 pm, the deputy responded to the Albion Basin on the report of people netting birds. The group turned out to be part of a permitted wildlife study.

September 6th 9:35 am- A lost property report was taken at the Rustler Lodge. At 1159 am, transportation was provided for an exhausted mountain biker back to

her vehicle. At 3:46 pm, the Marshal's, Fire, and Sheriff's departments responded to a motorcycle accident in the White Pine area. The fortunate rider sustained only minor injuries and was not transported. At 4:00 pm, downhill canyon traffic was restricted for the Annual Peruvian Lodge "Downhill Dash" footrace.

September 8th 8:10 am- A report was taken for minor vandalism to a dump truck window parked at the Peruvian Lodge. We have ruled out eco-terrorism as a group of kids were seen throwing rocks in the area prior to the damage being discovered.

September 9th 11:12 am- Response was made to another Albion Basin cabin for a 911 hang-up call. Again, all was found to be O.K. Residents, please check the rechargeable batteries on cordless phones along with your smoke detectors!
